Price is per license unless otherwise specified.

ExtendSim Adopters

Becoming an ExtendSim Adopter offers educators at accredited institutions the opportunity to teach utilizing the full capabilities of ExtendSim — at no charge. Adopters commit to using ExtendSim for teaching simulation within their department. In return, the approved department receives an ExtendSim Academic Network License at no charge and students may purchase ExtendSim LT for \$25. Details and an application are available at www.extend-sim.com/aca_adopter.html.

eTextbook -- ExtendSim for Discrete Event System Simulation

Adhering to the layout of *Discrete-Event System Simulation* by Banks, et al. (DESS), the new supplemental textbook, ExtendSim for Discrete-Event System Simulation, uses ExtendSim as a pedagogical tool to explain concepts discussed in the master DESS textbook.

Additional Information for Academic Pricing

- ◉ Intent of Use Letter -- A signed letter on university letterhead stating ExtendSim will be used by a professor teaching a course, a student using the software in that course, or a student using ExtendSim for research toward an advanced degree must be submitted with your order to qualify for academic pricing.
- ◉ Discount pricing is not available if license will be used for consulting.
- ◉ Imagine That Inc. reserves the right to determine whether license use qualifies for the discount.
- ◉ Shipping charges will be added to your order. California residents add sales tax.
- ◉ Prices are only available directly from Imagine That Inc. and are subject to change without notice. Prices may differ outside the USA, Canada, & Mexico. Export to other countries is prohibited.

LICENSE TYPES AND SUPPORT PLANS

Single User License for Educational Use

- Full license at a reduced price – for teaching or research towards an advanced degree.
- Designed to be utilized by a single user on a single computer.
- Includes printed User Guide and Addendum in addition to electronic versions of the User Guide, Addendum, and Developer Reference.

Academic Network Licenses

- Allows a specified number of concurrent users in a network.
- Academic Network License is available at no charge for ExtendSim Adopters. (See ExtendSim Adopters above.)
- If you choose not to become an Adopter, the Academic Network License is available for purchase on a per station basis; min. 5 stations.
- Online documentation is included. Printed manuals may be purchased separately.

ExtendSim LT

Limited version of ExtendSim Suite that allows you to:

- Run models of any size for an unlimited time
- Enter or import parameter values into a model
- View and export results
- See animation in the model, if the model includes that feature
- Build small models (up to 75 blocks)
- Save changes to models plus print models, dialogs, and so forth
- ExtendSim LT includes the eTextbook *ExtendSim for Discrete Event System Simulation*.

Students from departments or institutions that are ExtendSim Adopters may purchase ExtendSim LT for \$25.

Support

After a 60 day complimentary support period, Technical Support is available for registered ExtendSim users either under an annual Maintenance Plan or on a Per-Incident basis.

Maintenance Plan

Academic Network Licenses -- A Maintenance Plan for support and upgrades is *required*. If you are an ExtendSim Adopter, simply re-apply annually to maintain your status. If you are not an Adopter, Maintenance is included for the first year; it must then be renewed annually at \$25 per station (maximum \$500). The Maintenance Plan covers basic usage questions and troubleshooting as well as upgrades to major releases.

Single User Licenses -- A Maintenance Plan for support and upgrades is *optional*, but highly recommended. The Maintenance Plan covers basic usage questions and troubleshooting as well as upgrades to major releases. Maintenance can only be purchased within 60 days of purchasing a new license or upgrading. Each single user license must have its own Maintenance Plan.

Single User and Network Licenses -- In addition to support and upgrades, the Maintenance Plan provides discounts on special ExtendSim webinars and trainings as well as first looks at upcoming products and features.

Per-Incident Support (for single user licenses only)

For usage questions and troubleshooting after the first 60 days, support may be purchased on a per-incident basis; each incident is a discussion and resolution of one issue. Per-Incident Support is available for purchase through the ExtendSim Store.
