

Short notes from FrontWay regarding 2009 and the upcoming 2010

Thank You all for the last year !

During 2009 we have got a number of signed agreements with old and new customers.

This makes the total customer/user list of our standard products as below:

☛	Metso Paper Tissue	Karlstad	Sweden
☛	Metso Paper Mech	Sundsvall	Sweden
☛	Voith Paper in Ravensburg	Ravensburg	Germany
☛	TBP Piesslinger	Linz	Austria
☛	SCA Ortviken	Sundsvall	Sweden
☛	Holmen Group, includes licenses for Braviken, Iggesund, Workington, Papilera and Hallstavik		
☛	Inventia	Stockholm	Sweden
☛	Prompt	Karlstad	Sweden
☛	SCA Research	Sundsvall	Sweden

As we did in 2009, FrontWay will hold PaperFront courses every second month of 2010 at our office in Norrköping.

Over the last 6 months, FrontWay has created a number of PaperFront models which have proven to be highly useful in the pulp and paper making industry. Using the ExtendSim integrated database to handle in and outputs also has opened up a number of new application areas. More information to come !

Also, FrontWay is moving into the finishing line industry. In 2009, a large packaging line was simulated with PaperFront and 2 years earlier, modeled a motor engine production line.

And once again, thanks for last year and we wish You all a good year 2010.

Kind regards,

Anders Nilsson
